

ECONET ORG

Company Profile

Secure Digital Infrastructure | IT & Government Solutions

WHO WE ARE

About Econet Org

Econet Org is a technology-driven digital services and IT solutions organization focused on building secure, scalable, and government-ready digital platforms for businesses, institutions, and public-sector entities across India. Founded with a vision to bridge the gap between technology and trust, we specialize in secure digital ecosystems that combine modern software engineering, compliance-first architecture, and user-centric design.

We operate at the intersection of digital identity, IT infrastructure, secure verification systems, and enterprise web solutions — enabling organizations to adopt technology with confidence and accountability.

A MESSAGE FROM OUR CEO

Leadership

Riyaz Ahmad Bhat
CEO & Founder

Riyaz Ahmad Bhat
Founder & Chief Executive Officer

“At Econet Org, our goal has always been simple — to build technology that people can trust. From secure digital identity and verification systems to government-ready platforms, every solution we deliver is built with security, transparency and accountability at its core. We are proud to serve businesses and institutions across India, and we remain committed to driving meaningful digital transformation.”

Riyaz is a technology entrepreneur focused on building scalable, secure digital ecosystems, leading Econet’s vision with an emphasis on innovation and long-term client partnerships.
